SUPPLEMENTARY INFORMATION:
The Department of Labor, as part of
continuing efforts to reduce paperwork
and respondent burden, conducts a pre-
clearance consultation program to
provide the general public and Federal
agencies an opportunity to comment on
proposed and/or continuing collections
of information before submitting them
to the OMB for final approval. This
program helps to ensure requested data
can be provided in the desired format,
reporting burden (time and financial
resources) is minimized, collection
instruments are clearly understood, and
the impact of collection requirements
can be properly assessed.

The Department of Labor’s VETS
administers funds for the Jobs for
Veterans State Grant (JVSG) to each
State, the District of Columbia, Puerto
Rico and the Virgin Islands on an
annual fiscal year basis. These
non-competitive, formula-driven grants are
codified under Title 38, United States
Code, (38 U.S.C.) Section 4102A(b)(5):
“Subject to subsection (c) make
available for use in each State by grant
or contract such funds as may be
necessary to support—(A) disabled
veterans’ outreach program specialists
appointed under section 4103A(a)(1) of
this title, (B) local veterans’ employment
representatives assigned under section
4104(b) of this title, and (C) the
reasonable expenses of such specialists
and representatives described in
subparagraphs (A) and (B), respectively,
for training, travel, supplies, and other
business expenses . . .”

VETS provides funds to States in
accordance with an allocation formula
required by 38 U.S.C. 4102A(c)(2)(B)
and as published in regulation at Title
20, Part 1001, Subpart F of the Code of
Federal Regulations (CFR). The
Assistant Secretary for Veterans’
Employment and Training monitors and
supervises the distribution and use of
those funds as required by 38 U.S.C.
4102A(b)(6). Additionally, and in
accordance with 38 U.S.C. 4107(b), the
Secretary reviews performance and
provides an annual report to Congress that
includes:
A characterization of the quality and
center of priority of services
provided to veterans (38 U.S.C. 4215
and 20 CFR 1010.320, 1010.330);
Efforts to coordinate with the
Veterans Administration in
accordance with 38 U.S.C. 4102A(b)(3) and 4109;
and
Incentive fund usage as described in

VETS is requesting continued
approval for the information collection
that streamlines the annual funding
request process for grantees, reports the
use of grantee funds in sufficient detail
to allow interim adjustments that ensure
all appropriated funding is expended
properly, and provides data needed for
VETS’ Annual Report to Congress.
The forms and reports collect required
programmatic and financial data from
States requesting and obligating grant
funds. The continued use of
standardized formats for collecting this
information helps to ensure that requested
data is provided in a uniform way,
reporting burdens are minimized,
the impact of collection requirements on
respondents are properly assessed,
collection instruments are clearly
understood by respondents, and the
information is easily consolidated for
posting in accordance with statutory
requirements.

With respect to the continuation of
the approved collection of information,
VETS is particularly interested in
comments on these topics:
(1) Whether the continued collection
of information is necessary for the
proper performance and oversight of the
Jobs for Veterans State Grant, including
whether the information will have
practical utility;
(2) The accuracy of the VETS’
estimate of the burden of the proposed
collection of information;
(3) Ways to enhance the quality,
utility, and clarity of the information to
be collected; and
(4) Ways to minimize the burden of
the collection of information on
respondents, including through the use
of automated collection techniques,
when appropriate and other forms of
information technology.

FOR FURTHER INFORMATION CONTACT:
Peter Zorba, SSFL Project Director, by email at ssfc-ssfl-eis@mail.nasa.gov, 202–714–0496. Additional information about the SSFL site, NASA’s demolition and proposed cleanup activities at SSFL, and the associated SEIS planning process and documentation (as available) may be found on the internet at https://ssfl.msfc.nasa.gov or on the California Department of Toxic Substances Control (DTSC) website at http://www.dtsc.ca.gov/SiteCleanup/SantaSusanaFieldLab/.

SUPPLEMENTARY INFORMATION: The SSFL site is 2,850 acres located in Ventura County, California, approximately seven miles northwest of Canoga Park and approximately 30 miles northwest of downtown Los Angeles. SSFL is located near the crest of the Simi Hills, which are part of the Santa Monica Mountains running east-west across Southern California. The diverse terrain consists of ridges, canyons, and sandstone rock outcrops. SSFL is composed of four administrative areas known as Areas I, II, III, and IV and two “undeveloped” areas. NASA administers 41.7 acres within Area I and all 409.5 acres of Area II. The Boeing Company (Boeing) owns the remaining 2,398.8 acres within Areas I, III, IV, and the two undeveloped areas. The Department of Energy (DOE) does not own any land at SSFL but is responsible for building demolition and cleanup of soils and groundwater in Area IV and the Northern Buffer Zone.

Since the mid-1950s, when SSFL was administered by the U.S. Air Force, this site has been used for developing and testing rocket engines. Four test stand complexes were constructed in Area II between 1954 and 1957 named Alfa, Bravo, Coca, and Delta. These test stand areas along with the Liquid Oxygen (LOX) Plant portion of Area I were acquired by NASA from the U.S. Air Force in the 1970s.
